

Presswood Pallet Equipment

Scenix pallet supplies high quality Presswood Pallet Equipment. We are professional manufacturer for innovative presswood pallets and compressed wood pallet machines in Qingdao, China. Customer satisfaction is our biggest goal.

Product Introduction

We always perform for a tangible staff to ensure that we can present you with the most effective top quality plus the greatest cost for Hot New Products China Factory Made Euro Double Sides Plastic Pallet with Direct Sale Price, If you are interested in almost any of our goods, make sure you feel no cost to call us for more aspects. We hope to cooperate with additional mates from all over the earth. Hot New Products China Pallets, Plastic Pallets, They are sturdy modeling and promoting effectively all over the world. Never ever disappearing major functions within a quick time, it's a have to for you personally of fantastic good quality. Guided by the principle of Prudence, Efficiency, Union and Innovation. the corporation. ake an excellent efforts to expand its international trade, raise its organization. rofit and raise its export scale. We've been confident that we've been gonna have a bright prospect and to be distributed all over the world in the years to come.

Wholesale cheap Presswood Pallet Equipment

Introduction of Presswood Pallet Equipment

With the developing of economic and environmental system. Fumigation free and inspect free pallets with no water, air and other pollution from wood waste raw material and agriculture waste becomes more and more popular. The pallet is mainly used in package and turnover. It is an ideal product for transportation and warehouse.

The raw material of wood pallet process line includes wood waste, logs, sawdust, shavings and bamboo, cotton stalk and so on.

Presswood Pallet Equipment includes Crushing machine, Drying machine, Glue mixing machine and wooden pallet forming machine. We can design automatic and semi-auto machinery with

different capacity according to customer demands and investment capital.

Specification of Presswood Pallet Equipment

ITEM	UNIT	MODEL
		SY-1000
Working pressure	Mpa	18-20
Output pressure	T	1000
Main oil cylinder diameter	mm	400
Main oil cylinder quantity	pcs	4
Cylinder stroke	mm	600
Maximum size of pallet	mm	1300×1200
Motor power	KW	11
Weight of machine	T	23
Machine dimension	mm (L×W×H)	3300×1600×3400
Production capacity	pcs/24H	200

Compressed wood pallet line

Presswood Pallet Equipment APPLICATION

The presswood pallet equipment is mainly used in production plants for production turnover or packaging, and is also an ideal product for logistics enterprises and storage enterprises. It has the characteristics of quarantine-free and low price, and is very popular among users. Proved by the market, the products are now in short supply.

1.The wood pallet making machine also called wood molded pallet machine, is a new type of one time forming machine.

2.The hot press wood molded pallet making machine has the performance of good stability, high efficiency, energy saving and automatic control. It can use both the steam and the thermal oil for hot pressing.

3.It is very convenient for installation and do not need basic positioning, the hot compress wood pallet making machine is a very good equipment for wood recycling and solution to your waste wood.

Details Of Presswood Pallet Equipment

- (1) Equipment design: Special internal design made the framework has a very high tensile strength, strong rigidity and stable..
- (2) Hydraulic system: It has an independent hydraulic system and adopts a two-way cartridge valve, which is small and light, compact in structure, small in flow resistance, large in flow, sensitive in action, reliable in work, good in sealing performance, easy to maintain, and long in service life and etc, working pressure can be adjusted within the parameter range.
- (3) Control system: Easy and simple to handle, control cabinets can be automatic and manual control.
- (4) Automatic control mode: Press the start button to automatically complete a pallet pressing process, and automatically complete the finished product ejection and automatic palletizing to reduce manual handling. It can be switched to manual mode, and the manual button controls the slider to rise, fall and unload.
- (5) Safety device

The motor control part has thermal protectors, circuit breakers, etc., to protect the motor from overloading damage and over-current short-circuit.

There are independent relief valves for rising and falling oil cylinders to ensure pressure not overloaded.

Overpressure protection: It stops working when the set pressure is reached.

Delivery and Shipping Service of Presswood Pallet Equipment
